

SAHIL KUMAR

Data Analytics Enthusiast | B.Tech CSE Student

Dehradun, Uttarakhand | +91 7319899379 | sahilkumar620409@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Second-year Computer Science Engineering student with practical, hands-on experience in data analysis using Python. Completed a Data Analysis internship at Cognifyz Technologies, applying pandas, seaborn, and scipy to extract actionable insights from a real-world restaurant dataset. Building a strong foundation in statistics, SQL, and data visualization, backed by core programming skills in C, C++, Java, and web fundamentals. Seeking a Data Analytics / Data Science internship to contribute analytical rigor and problem-solving ability to real business challenges.

EDUCATION

Tula's Institute, Dehradun

2024 – 2028

B.Tech in Computer Science Engineering | CGPA: 7.1 / 10 (improved from 6.0 in Year 1)

INTERNSHIP EXPERIENCE

Data Analysis Intern — Cognifyz Technologies

Remote

- Designed and built end-to-end Python analysis pipelines (level2_analysis.py, level3_analysis.py) to process a Zomato-style restaurant dataset using pandas, scipy, seaborn, and itertools.
- Performed exploratory analysis on restaurant ratings distribution, popular cuisine combinations, and geographic patterns to surface actionable trends across locations.
- Engineered logic to detect restaurant chains and studied statistical correlations between price range and service quality metrics.
- Produced and interpreted data visualizations (chart-based outputs) to communicate findings in a clear, business-friendly format for non-technical stakeholders.
- Debugged and resolved cross-platform execution issues (macOS/Windows), ensuring scripts ran reliably across environments.

PROJECTS

MediConnect AI — Python, SQL

- Developed a healthcare-focused application integrating a Python backend with a SQL database for structured, reliable patient data management.

Hospital Management System — Java, SQL

- Designed and implemented a database-driven system to manage hospital records, patient information, and administrative workflows end to end.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, SQL, HTML

Data Analysis & Visualization: pandas, NumPy, scipy, seaborn, matplotlib, Excel

Tools: Git, GitHub, Jupyter Notebook, VS Code

Concepts: Statistical Analysis, Data Cleaning, Exploratory Data Analysis (EDA), Database Design

CERTIFICATIONS

- NPTEL Java Elite Silver Medal — Scored 88%
- CODSOFT Certification
