

SAHIL KUMAR

Data Analytics Enthusiast | B.Tech Computer Science Engineering Student
Dehradun, Uttarakhand | +91 73198 99379 | sahilkumar620409@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Third-year Computer Science Engineering student with hands-on Data Analytics experience in Python, SQL, and data visualization. Completed a Data Analysis internship at Cognifyz Technologies, applying Pandas, Seaborn, SciPy, and NumPy to extract actionable insights from real-world datasets, and independently built six end-to-end data analytics projects using real government, industry, and public datasets — including one built on official Uttarakhand government air quality data and another analyzing 196,000+ real job postings. Skilled in statistical analysis, data cleaning, exploratory data analysis (EDA), SQL querying, and dashboarding with Google Looker Studio. Seeking a Data Analytics / Data Science internship to apply analytical rigor and problem-solving to real business challenges.

EDUCATION

Tula's Institute, Dehradun

2024 – 2028

B.Tech in Computer Science Engineering | CGPA: 7.1 / 10 (improved from 6.0 in Year 1)

INTERNSHIP EXPERIENCE

Data Analysis Intern — Cognifyz Technologies

Remote

- Built end-to-end Python data analysis pipelines to process a Zomato-style restaurant dataset using Pandas, SciPy, Seaborn, and itertools.
- Performed exploratory data analysis (EDA) on restaurant ratings distribution, popular cuisine combinations, and geographic patterns to surface actionable trends across locations.
- Engineered chain-detection logic and studied statistical correlations between price range and service quality metrics.
- Produced and interpreted data visualizations to communicate findings in a clear, business-friendly format for non-technical stakeholders.
- Resolved cross-platform execution issues (macOS/Windows), ensuring scripts ran reliably across environments.

PROJECTS

Data Analyst Job Market Analysis — *Python, Pandas, Hugging Face Datasets, Seaborn*

- Analyzed 196,000+ real Data Analyst job postings globally to identify in-demand skills, salary trends, and remote-work patterns.
- Found SQL appears in 47% of all postings — the single most in-demand skill — while Python commands the highest average salary (~\$101K/yr) among top skills.

GitHub: github.com/sahilkumar620/data-analyst-job-market-analysis

Dehradun / Uttarakhand Air Quality Analysis — *Python, Pandas, Matplotlib, Seaborn*

- Analyzed 412 station-days of official Uttarakhand government (UKPCB) air quality data across 3 Dehradun monitoring stations.
- Identified PM10 as the dominant pollutant and found zero days met the "Good" air quality standard across two years, surfacing a significant public health finding.

GitHub: github.com/sahilkumar620/dehradun-air-quality-analysis

Student Placement Data Analysis — *Python, Pandas, Matplotlib, Seaborn, EDA*

- Analyzed 12,000 student records to calculate placement KPIs, uncover patterns behind placement outcomes, and build supporting visualizations.
- Delivered actionable insights connecting academic and skill-based factors to placement success rates.

GitHub: github.com/sahilkumar620/student-placement-data-analysis

Superstore Sales & Profitability Analysis — *Python, Pandas, Matplotlib, Seaborn*

- Analyzed 3+ years of retail transaction data (9,994 orders) to uncover sales and profit trends across categories, regions, and customer segments.
- Quantified the discount-vs-profit relationship (correlation of -0.22), identifying that profit turns negative past ~40% discount.

TECHNICAL SKILLS

Languages: Python, SQL, C, C++, Java, HTML

Data Analysis & Visualization: Pandas, NumPy, SciPy, Seaborn, Matplotlib, Excel, Google Looker Studio

Tools: Git, GitHub, Jupyter Notebook, VS Code

Concepts: Statistical Analysis, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Database Design, KPI Development

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Coursera (9 courses: Spreadsheets, SQL, Tableau, Python)
- NPTEL Java Elite Silver Medal — IIT Kharagpur, Scored 88% (Elite Certification)
- CodeAlpha Data Analytics Internship — EDA, Data Visualization & Sentiment Analysis
- CodSoft Web Development Internship — Virtual Internship, 4 Weeks
